SS

★★★★★

As a business owner, the comfort of our employees is a top priority. DESIRE FACILITY MANAGEMENT took care of our HVAC needs without disrupting our daily operations. They are reliable and always responsive to our needs.

Nai Jex

“

★★★★★

We've been relying on DESIRE FACILITY MANAGEMENT for all our HVAC needs, and they never disappoint. Their team is professional, timely, and always ensures our systems are running efficiently. Highly recommend!.

Arlene McCoy

SS

★★★★★

The team at DESIRE FACILITY MANAGEMENT installed our new air conditioning system, and it's been a game-changer. They worked quickly, explained everything clearly, and left the space spotless. Excellent service!.

David Lee

### • FREQUENTLY ASKED QUESTIONS

## Answers to your most asked questions

### 1. How often should I schedule HVAC maintenance?

We recommend scheduling HVAC maintenance at least once a year—ideally before the heating or cooling season starts. Regular maintenance helps prevent costly breakdowns, improves efficiency, and extends the lifespan of your system.

### 2. What are the signs that my air conditioning system needs repair?

### 3. How long does a furnace typically last?

### 4. Do you offer emergency HVAC services?

### 5. Can you install a new A/C system in an existing home or building?

### • LATEST NEWS

## Revolutionizing Comfort with Every Update.

The HVAC industry is experiencing significant developments in early 2025, with a focus on sustainability, technological advancements, and regulatory changes.

### Advancements in Refrigeration

Embraco showcased its complete refrigeration portfolio and new products at the AHR Expo 2025, highlighting the industry's focus on innovation and efficiency.

Read More [→](#)

### Integration of Solar Technologies

The International Energy Agency's Solar Heating and Cooling Programme continues to promote the integration of solar technologies in HVAC systems, aiming to enhance energy efficiency and sustainability.

Read More [→](#)

### Regulatory Changes

The HVAC industry is navigating a pivotal year in 2025, balancing challenges like inflation and the refrigerant transition with opportunities from incentives and decarbonization efforts.

### ENVIRONMENT

At Desire, HSE is a shared responsibility. We continuously engage with our employees, clients, and partners to promote a safety-first mindset and environmental consciousness. By prioritizing health, safety, and the environment, we aim to not only protect our workforce and assets but also build a legacy of responsible business practices that contribute to a safer, healthier, and greener future.

Environmental stewardship is equally critical to our operations at Desire. We are dedicated to reducing our environmental footprint by adopting sustainable practices and minimizing waste generation. Our processes are designed to conserve natural resources, reduce emissions, and comply with environmental regulations.

“ At Desire, we prioritize the well-being of our employees, clients, and stakeholders by fostering a culture rooted in health, safety, and environmental responsibility. We believe that a safe and healthy work environment is the foundation for productivity and sustainable growth.

Our HSE policies are designed to prevent workplace accidents, reduce health risks, and ensure that all our operations comply with national and international safety standards.

## Safety First, Health Always, Environment Forever.

At Desire, we are committed to building a safe, healthy, and sustainable work environment for our employees, clients, and the communities we operate in. Our HSE approach is built on the principle that safety is not just a requirement but a responsibility shared by everyone. We prioritize the well-being of our workforce, ensuring that every individual returns home safely every day.

- Promoting employee well-being through health programs, regular medical checkups, and hygiene standards.
- Ensuring workplace safety through risk assessments, safety drills, use of personal protective equipment (PPE), and incident reporting.
- Implementing eco-friendly practices, reducing waste, conserving resources, and complying with environmental regulations.
- Conducting regular HSE training sessions and encouraging employees to take ownership of their safety and surroundings.
- Adhering to local and international HSE standards and continuously improving our safety and environmental performance.

Safety is not just a requirement at Desire; it is a core value embedded in every aspect of our operations. We conduct regular safety audits, risk assessments, and employee training to ensure that our workforce is equipped to handle any situation safely. Personal protective equipment (PPE) is mandatory where required, and our employees are trained to recognize potential hazards and respond swiftly.
